Vide para 3 cl VIII a iii & c III. There is a qualification for Sanitary Inspectors or asst S. Inspectors

As the rules stand, a good knowledge of Kannada is a pre-requisite to apptt as Sanitary Inspectors - If, however, a sufficient number of men with this qualification cannot be had, — a point on which Govt have no information before them, — ~~and~~ then there seems to be no objection to others being entertained on probation, their confirmation being made dependent on their acquiring a good colloquial knowledge of the language within six months.

going to be chosen for being trained as Sanitary Inspectors, let them be Matriculates who know Kannada. I think any number of them will be forthcoming in Mysore Province. When the supply falls short, we may think of the present proposal. The Sanitary Surgeon (Col Smyth) says that a knowledge of Kannada is essential and I would make no exception.

Otherwise If men who are duly qualified to be Sanitary Inspectors are lacking in a knowledge of Kannada and if qualified men possessing a knowledge of Kannada are not available
